PRESCHOOL

— MAY —
NEWSLETTER 2023

EID UL FITR MUBARAK TO ALL!

"May each and every day of your life be blessed by Allah swt. May you walk new paths of success and prosperity with his blessings. Eid Mubarak."

Preschool was busy with a lot of activities which we planned for the month of Ramadan. Teaching children at a very young age about giving charity is very important. As they grow they will be in the habit of sharing and giving things to those who are less fortunate than them. **Hygiene kits** were donated by parents and was distributed to the homeless people. Another great activity, we partnered with ICSGV/ICNA pantry and collected **Canned Food items**. The children had a chance to stack up the items to be distributed to the needy. They also got to take home the **Sadaqa Jar** which

they decorated and insha Allah when they bring back after Eid I will update the raised funds in our next newsletter. This money will be distributed to the needy children in our community.

The most excited and fun thing is that we were able to have **Iftaar** together at the masjid. This was a special gathering for our preschool families. And finally we celebrated Eid and did a lot of fun activities and enjoyed our gifts at the Party.

NO SCHOOL

1 • May 29th Memorial Day

2 • May 30-June 2nd In service/Upkeep Days

IMPORTANT DATES TO REMEMBER

1 • May 3- Sadaqa Jar Due

3 • May 18-Tea and Cookies with Moms

2 • May 11-Spring/Graduation Picture Day

4 • May 25-- Donuts and Coffee with Dads

CANNED FOOD DRIVE

IFTAAR NIGHT

SADAQA JARS PROJECT

EID PARTY

FIELD TRIP TO THE CHILDREN'S MUSEUM

FIELD TRIP CAR MECHANIC PLACE

MATH IS EVERYWHERE AND MATH IS FUN!

1. Make Laundry Fun

Encourage your child to make a pile of white socks and a pile of colored socks. Practice estimation skills by asking, "Which pile do you think has more socks?" Then, ask him/her to count each pile to see if his prediction was correct.

2. Use Snacks

Encourage your child to create patterns using sliced grapes and bananas. When he/she is finished, copy his pattern and then take turns making and replicating different patterns. Practice counting skills by placing three apple slices in one pile and five orange slices in another. Ask your child to count each group and determine which has more. Change the amount of items in each pile and play again.

3. Practice During Story Time

Read books that not only reinforce math concepts, but also contain bright illustrations and a fun plot. Some favorites include Go Dog Go, How Do Dinosaurs Count to Ten, and Chicka, Chicka 1, 2, 3.

4. Take Your Child Grocery Shopping

Give your child coupons, and ask him/her to help you find the pictured items in the store. It's a fun scavenger hunt game, as well as a great opportunity for you to talk about money. Say the price of the items as you place them into your cart, for example, "Apples are usually 50 cents each, but we saved 15 cents by using a coupon."

5. Use Foam Numbers In The Bath

Practice number recognition with your child using foam numbers in the tub. Ask him/her to find specific numbers in the water or point to a number and ask him to tell you the name.

AT HOME ACTIVITIES

Learning At Home Activities: Block Sorting!

Use Legos or building blocks to encourage your child's sorting skills! Ask them to observe the color, shape, and size of each block and sort them into groups. How many green blocks are there? How many small blocks are there?

Estimated Time: 20 minutes

Materials:

Legos or building blocks

Subject: Math

STRAWBERRY LEMONADE

- 3 strawberries diced (You can put more if you want more fruit taste)
- Sugar to taste
- Cup of Water
- 2 teaspoons of lemon juice

First you take a cup of water and put it in a mini blender... then add lemon juice, strawberries, and sugar. Blend it up and put it in a cup. Drink up!!!
